

AGN. NO. _____

MOTION BY SUPERVISOR DON KNABE

September 28, 2004

The Board of Supervisors continue to have persistent problems with the reliability of our computer systems. The on-going instability of our network has decreased productivity and caused for serious delays in responding to constituent needs. The persistence of problems also raises concerns about the security of our network and computer systems.

I therefore move that the Board of Supervisors direct the Executive Office, in consultation with the Chief Administrative Office and other pertinent departments, to immediately hire an independent consultant to review our computer and network systems and report back to the Board within 14 days as to what the problems are and a corrective action plan to ensure the stability of our network.
